1. Soviet Russians are working the uranium deposits in the Birlik Tau (mountains) near Chuguchak /Tacheng, 82-57, 46-45/.

Note: According to available maps Birlik Tau is approximately one hundred miles south of Chuguchak. Therefore, it is not known whether the uranium deposits are in the Birlik Tau or near Chuguchak. It is probable that the Birlik Tau is meant and source added "near Chuguchak" because it is the nearest large city.
